

Building homes, communities and hope

Tri-Annual Report
2017 – 2019

**We build
strength,
stability, and
self-reliance
through
shelter.**

Together with beneficiaries and volunteers, Habitat for Humanity Romania works to build, advocate, and empower.

Roberto Pătrășcoiu
National Director
Habitat for Humanity Romania

At the time of writing this report, the whole of humanity is struggling to cope with the unexpected challenge posed by the spread of the new coronavirus.

In the world of #StayAtHome, I believe that never in the last decades has the importance of a welcoming house and a “home” been more pronounced than now.

A safe and decent home brings stability, security and it has become the main remedy for societies everywhere in the fight against the COVID pandemic. But not all families have access to it.

The uncertainty we all feel now is what vulnerable families have been feeling for years, if not generations.

A decent home is more important than ever. And now, more than ever, we need you to act as a volunteer, donor and partner to those in need.

For a world where #StayAtHome becomes a reality for many, not just an intangible dream.

Our Mission

Seeking to put God's love into action,

Habitat for Humanity brings people together to build homes, communities and hope.

Our Vision is a world where everyone has a decent place to live.

We are therefore constantly looking for new solutions that would make adequate housing accessible and affordable for all.

Our Principles

Focus on shelter.

Advocate for affordable housing.

Promote dignity and hope.

Support sustainable and transformative development.

Demonstrate the love of God.

Affordable Housing

Habitat for Humanity Romania builds and renovates homes in partnership with low-income families throughout the country. This ranges from single house builds to blitz builds of 10 or more houses in just one week.

Rehabilitation work is aimed at improving living conditions for families through several types of interventions.

Many of these projects support socially disadvantaged groups: Roma, orphans and families who care for members or children with special needs.

We partner with hard-working individuals and families, with no discrimination in selection. We want to invest in families who are willing to invest in their communities.

Sustainable Communities

Habitat for Humanity Romania builds stronger communities along with volunteers and partners, ensuring, through the projects implemented in areas with a major risk of underdevelopment, a better functioning of them.

The lack of workplaces and infrastructure, limited access to health services, as well as social exclusion and school dropout among children affect the stability and development of communities.

In partnership with local authorities, companies and other non-governmental organizations, Habitat for Humanity Romania builds or rehabilitates educational centers, social and professional integration centers, emergency centers and many more.

Disaster Risk Reduction and Response

Thousands of families are left without houses following natural disasters: floods, earthquakes, fire and landslides.

Over the years, Habitat for Humanity Romania has helped more than 50,000 people through its Disaster Risk Reduction and Response Programs.

Habitat for Humanity Romania has rehabilitated homes destroyed after natural disasters and often has had to rebuild them entirely thus eliminating the effects and strengthen the capacity of communities to respond to disasters.

These programs are community-based and carried out in partnership with the national government and local governments and businesses.

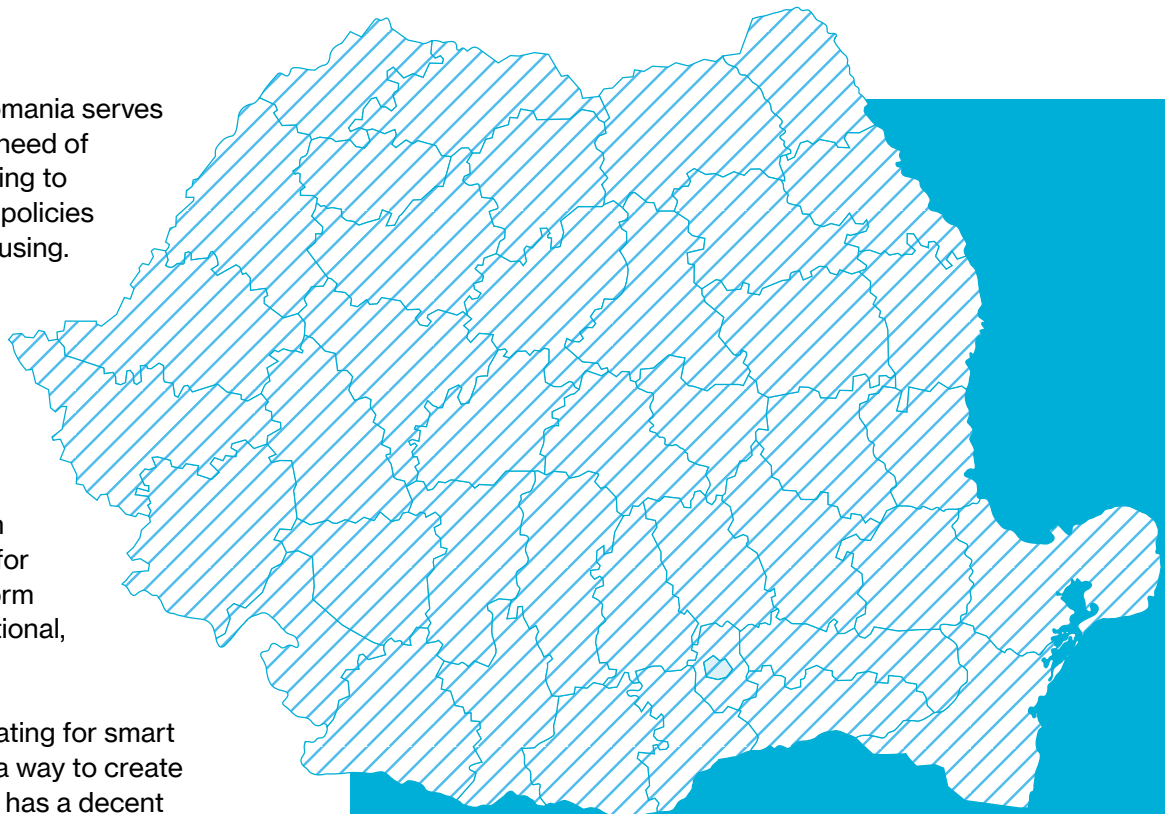

Advocacy

Habitat for Humanity Romania serves as a voice for people in need of decent housing by working to change laws and shape policies that affect access to housing.

Our advocacy approach is based on decades of on-the-ground experience and policy expertise. In our deep understanding of housing and its role in providing opportunities for families, we seek to reform laws in a non-confrontational, nonpartisan way.

Just like building, advocating for smart policies and systems is a way to create a world where everyone has a decent place to live.

BIG BUILD

is an annual accelerated construction, volunteering, and advocacy event,

through which Habitat for Humanity Romania celebrates World Habitat Day. Each year the project dimension varies from 8 to 36 houses built in five days.

“ BIG BUILD has a special place in my heart. In 2018 I remember that it rained a lot and - to hint at the weather - the houses sprouted like mushrooms after the rain. The weather did not stop us from remaining united and helping to build houses. 240 hearts that for 5 days beat in unison for the BIG BUILD project in Cumpăna. ”

Roxana Ciuhulescu
volunteer

Affordable Housing

BIG BUILD 2017

2 – 6 October, Bacău, Bacău County

36 homes in 5 days

The largest accelerated construction and volunteering event ever done in Europe.

Together with

1000 international and Romanian volunteers

we helped 36 families in need to achieve a decent and affordable home.

118 parents and children

have a new home now.

“ A lot of people have asked me why I like to be a volunteer, and I've always said that a lot of people have helped me in my life, and that's my way of giving back to other people. ”

Tina Crețu
volunteer

Affordable Housing

BIG BUILD 2018

1 – 5 October, Cumpăna, Constanța County

8 homes in 5 days

**10th edition of BIG
BUILD in Romania**

**25 parents
and children**

moved into their first decent home

Together with

**450 international and
Romanian volunteers,**

Habitat for Humanity Romania built 8 homes in
5 days.

“ I have been coming to Romania to help with the BIG BUILD projects since 2009. What keeps bringing me back is the special enthusiasm and energy that I feel working alongside hundreds of volunteers from Romania and other countries. And, of course, getting to know the partner families is special – to understand why Habitat for Humanity Romania is dedicated to helping low-income families have a home of their own. I hope to be able to continue my participation in these wonderful events once the coronavirus pandemic has passed. Keep up the great work, Habitat Romania! ”

Tom
volunteer

Affordable Housing

BIG BUILD 2019

7 – 11 October, Vaideeni, Vâlcea County

10 homes in 5 days

First accelerated post disaster construction project in Romania.

Homes completely destroyed by floods in 2014. Affected families had been living for 5 years in container homes or in improvised shelters.

First BIG BUILD event in an informal settlement.

500 people live in informal settlements in Vaideeni, Vâlcea County.

36 parents and children

have a decent and affordable home now.

500 volunteers

joined hands, hearts, and voices to build new hope for 10 families in need.

“ I decided that I must do something for these people, not just tell their story. Journalists help you when they tell your story because there are the people who see it, who vibrate for same cause and who contribute in the end. But journalists can do much more than that, they can hammer a nail, carry a wooden board, they can get involved directly on the construction site. ”

Adelin Petrișor
volunteer

New Homes Program

is a project in which Habitat for Humanity Romania builds homes in partnership with low-income families throughout the country. Many of these projects support socially disadvantaged groups: Roma, orphans and families who care for extended family members.

Ploiești

2017 – 2018, Ploiești, Prahova County

8 homes

Building together for the community – Habitat for Humanity Romania built 8 homes in Ploiești between 2017 and 2018.

Over 800 international and Romanian corporate volunteers were involved.

Berceni

2019 – 2022 Berceni, Prahova County

12 homes

12 families from Berceni with 3-6 members each will live in decent homes at the end of the project.

Cumpăna

2017 – 2019, Cumpăna, Constanța County

12 homes

Between 2017 and 2019, Habitat for Humanity Romania built 12 new units (3 quadruplexes) for families in need.

Dărmănești and Comănești

2019 – 2020, Comănești, Bacău County

6 homes

"We have a beautiful future, in a beautiful house, in a beautiful community! Thank you from the bottom of my heart! "

Ana Maria and Milea Trifan's family, with 4 children and Alexandra and Laurențiu Comanac's family with one child, now have a new place to call home.

Block II

2017, Caracal, Olt County, Aleea Carpați

Roof Top Rehabilitation

24 families with limited financial resources were living in difficult conditions.

Before the rehabilitation of the building, the 24 apartments were affected by every rain and snow due to mold and water infiltration, which caused pieces of plaster to come off from the walls and ceilings.

Home Repairs Program

2017 – 2019, Bacău, Galați, Buzău

Improving living conditions through several types of interventions.

86 beneficiaries

received construction materials to improve living conditions – replacement of old floor, roof, windows, thermal insulation, heating system

3.706 beneficiaries

received housing preparation kits for the cold season.

1.479 people participated in trainings,

learning about prevention in case of emergency caused by disasters.

2.750 people received technical information

on how they can improve living conditions.

Reconstruction after 2016 floods

2017, Bacău and Galați County

Habitat for Humanity Romania helped 400 families in areas affected by the floods, through several interventions to help them rebuild their homes and strengthen the capacity of communities to respond to disasters.

50 homes

were repaired after the floods in Bacău and Galați counties.

Reconstruction after 2018 floods

2018 – 2019, Neamț, Covasna, Bacău Counties

Eliminating the effects of heavy floods in the summer of 2018 and helping 110 affected families to repair their homes through technical assessments, estimates of materials and works, technical assistance and distribution of construction materials.

Habitat for Humanity Romania helped **400 beneficiaries** from the 3 counties after the floods.

Medical Center Rehabilitation

2017, Nicolae Bălcescu, Bacău County

The consolidation and rehabilitation of the medical center, built in 1920 in the commune of Nicolae Bălcescu, took place between July and September 2017.

3.200 people

from the local community now have a renovated medical center.

The medical center serves two villages - Valea Seacă and Buchila.

Social and professional integration services Center – "For an independent life"

2017 – 2019, Mediaș, Sibiu County

Rehabilitation of the Social and Professional Integration Services Center helping 200 young people from vulnerable groups have an independent life.

Habitat for Humanity Romania built an apartment building with 15 social apartments for the young people from disadvantaged groups, who are fighting against social exclusion due to extreme poverty, ethnicity, disabilities, or lack of formal education.

Moinești Emergency Center – Save our Savors

2019 – 2020, Moinești, Bacău County

Moinești Emergency Service

within the community center offers urgent medical assistance to more than 65.000 people from 11 localities in Bacău county.

200 children and youth

from Moinești will participate in trainings, learning about prevention in case of emergency caused by disasters after completion of the Center.

SOS Housing – Chances for Children

2019 – 2022, Bucharest

Rehabilitation of 2 buildings for SOS Children's Villages in Bucharest.

The rehabilitated buildings will host social and educational activities for 400 beneficiaries.

The energy performance of the buildings will also be improved by installation of a photovoltaic system to produce electricity, thus reducing the overall maintenance costs.

Together we build the future

2017, Urlați, Prahova County

Habitat for Humanity Romania built a new classroom for the students of the “Brâncoveanu Vodă” Technical School from Urlați.

In 2017 future specialists in electronics and automation started the school year in a modern and fully equipped classroom, built from scratch in just 3 months.

The Technical School within the “Brâncoveanu Vodă” Theoretical High School is addressed to students in the 8th and 9th grades.

Recapturing serene moments – Hospice Casa Speranței Brașov Center

2018, Brașov, Brașov County

Rehabilitation and energy efficiency project.

Habitat for Humanity Romania completed the rehabilitation and energy efficiency works for the Hospice Casa Speranței Center in Brașov.

Over 2.000 children and adults suffering from incurable diseases benefit from palliative care in a center at European standards.

As a result, the Center was reclassified from energy efficiency class D to class A. This will allow significant savings on energy bills, the equivalent of 140 days of hospitalization or 395 home care visits to patients.

Buftea Community Center – Education builds the future

2017 – 2019, Buftea, Ilfov County

Buftea Center is a complex program developed to support 2 very poor neighborhoods Flămânzeni and Buciumeni through access to education.

200 underprivileged children now have access to daily extracurricular activities before and after classes. The focus is on two schools, School no. 3 from Flămânzeni and School no. 4 from Buciumeni.

Most parents have no formal education, face severe difficulties in finding work and are living in overcrowded conditions, which reflects in decreased school performance or even dropout, as well as mental and behavioral development problems among children and youth.

“ I have never been in such a beautiful house. Here I like everything, the classrooms and the bathrooms and the big terrace! ”

Paul
7 years old

“ I don't want to go home; I want to stay here. Could I stay until the end of the morning classes and come back in the afternoon also? ”

Daria
8 years old

Build Solid Ground Project

2018 – 2021, European Project

Public Awareness & Communications

includes communication and outreach activities aiming to educate Europeans about global development needs and solutions for housing and land rights in cities.

Education

through specialized non-formal learning for interested groups on land, gender equality, housing and poverty reduction and show interdependences between Europe and the Global South – the developing countries of Africa, Central and Latin America and Asia.

Advocacy & Encouraging Volunteering

for decent housing in developing countries by motivating Europeans to volunteer and act for housing and land rights. HFHRO has organized so far 2 volunteering trips in Malawi, Africa.

Housing Forum

2017 – 2019, Bucharest

Annual **public awareness and advocacy** forum for improving housing public policies in Romania.

Participants: public decision-makers, representatives of corporate and civil society, NGOs, independent experts, media.

TALKS that BUILD

conceptual translation of debates held at the Forum in public policies for those in need.

1. **2017 – Affordable housing and energy efficiency**
2. **2018 – Social housing and informal settlements**
3. **2019 – Social housing and disaster response and prevention**

Public Policy initiatives adopted in recent years:

- Modification of criteria for social housing in Bucharest
- Regulation of "informal settlements" in the Romanian legislation and design of an intervention framework.

Our Hands, Hearts and Voices.

24

Habitat for Humanity Romania brings people together from across the community to serve the most vulnerable, mobilizing hundreds and thousands of volunteers as the hearts, hands, and voices for its work.

7.106 volunteers

helped build, advocate, and raise awareness about the global need for shelter in the in the last 3 years.

Build, advocate, and raise awareness

Volunteers Events

Corporate Volunteering

Corporate volunteering with Habitat for Humanity Romania will not only help families in Romania build decent and sustainable homes, but it will also help build relationships within teams and boost company morale.

Company employees will have an opportunity to interact with one another in a non-work setting, meeting colleagues from all over the world in a way that stimulates communication and company team building. This in turn will have a beneficial effect on productivity as employees return to work feeling motivated and inspired.

Individual Volunteering

Habitat for Humanity Romania offers national and international volunteer programs for people who would like to contribute to our mission of a world where everyone has a decent place to live. Families all around the world partner with us to build decent, sustainable homes and stronger, more stable communities.

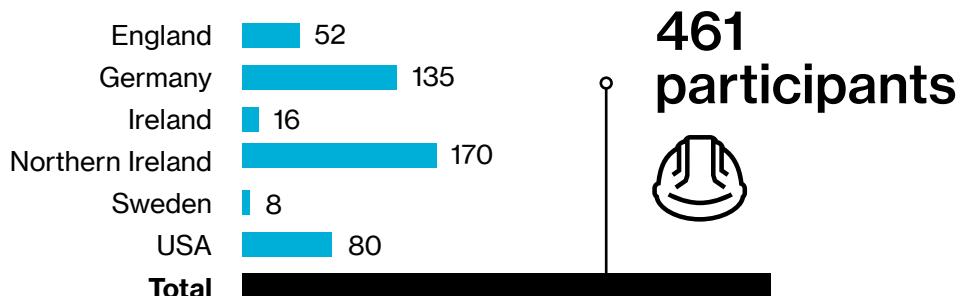

Global Village Volunteer Program

Habitat for Humanity Romania may work around the corner from you, but we also work around the world. Through Habitat for Humanity's Global Village trips, you can volunteer abroad with us in nearly 30 nations. And Habitat for Humanity Romania is proud to be part of the big family of hosting countries and receive annually volunteers across the world.

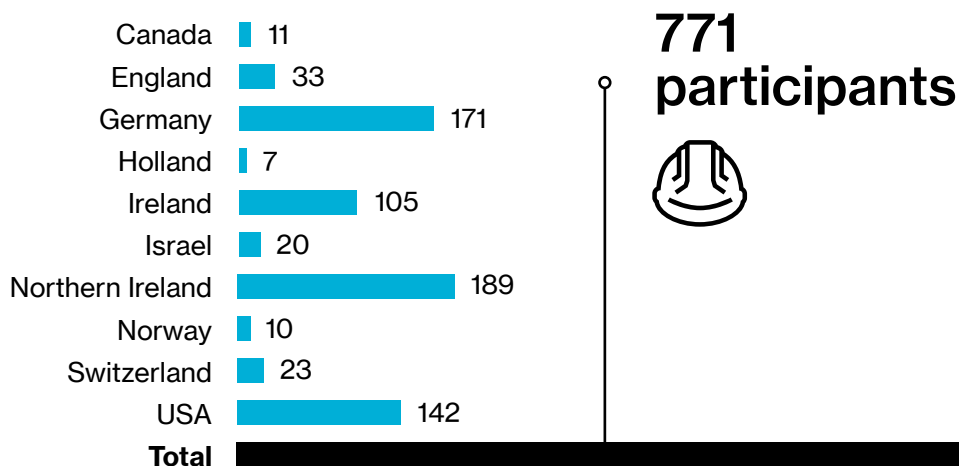

The international volunteers that we host on our building sites comes from different countries, backgrounds, religions or ages because we believe in equality for all and we offer them the opportunity to discover our culture and work together with our partner families.

In the past 3 years we managed to host:

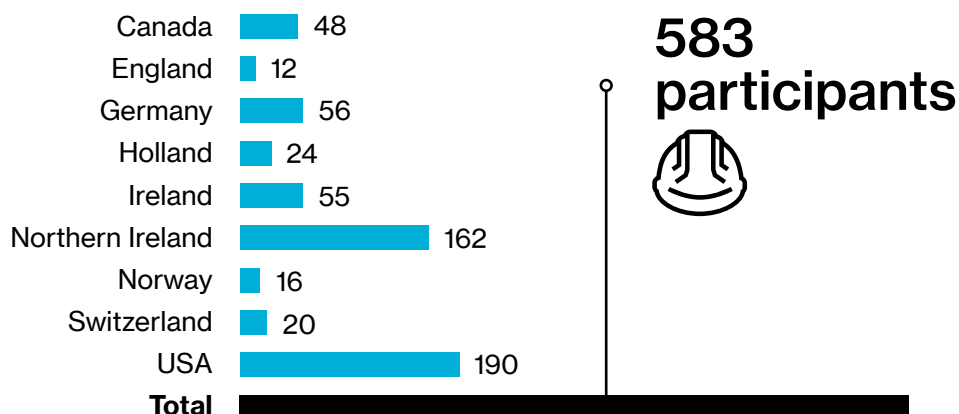

2017

2018

2019

“ *My volunteer experience has helped to restore my faith in the good that exists in the world. And there is so much need to fill. The more people that can join as volunteers for Habitat for Humanity, the better.* **”**

Heather
New Homes Moinești – Bacău County
volunteer

“ *I think that Habitat for Humanity Romania is a very important cause. I tell all my friends and family that service trips are a wonderful way to experience a new place or culture and do some good. This trip to Romania was my 5th one and I look forward to more.* **”**

Karen
Berceni New Homes, Ploiești – Prahova County
volunteer

Habitat for Humanity Romania wanted to achieve more. We are grateful for the help from all over the world and we wanted to give something back. The solution was to send teams of Romanian volunteers to continue the Habitat for Humanity mission in places where the help is needed the most.

We successfully sent 2 teams of Romanian volunteers in Malawi.

In October 2018, the first team of volunteers Habitat for Humanity Romania in Africa built 2 houses in a poor community in Lilongwe near the capital Malawi.

Lebita Kaundama and Sofileti Kayitoni now live in those two houses - two widowed mothers and their children, whom they raise alone.

Over Lebita and her children, the old house simply collapsed during a strong storm. Fortunately, they were not seriously injured. But their home could not be repaired, and they took shelter for a year in an aunt's house. For Sofileti and her four children, each heavier rain meant a new flood. They all lived in a house with a plastic-covered roof and bundles of reeds, which were often destroyed during the rainy season, which in Malawi lasts for months every year.

Volunteers build 4 houses for local families in the last 2 years.

In October 2019, 13 Habitat for Humanity Romania volunteers went to the Chisidze and Kampido communities in Salima, Malawi, where they built 2 houses for 2 families in 6 days

The beneficiaries are Steria Yohane, a mother who raises her 4 children alone after her husband's death, and Lucy Benitala, a single mother who suffers from Down syndrome, with two children. In Lucy's case, her mother and sister help her around the household. Both families lived in poor conditions, with the roofs and walls of the houses suffering during flooding during the rainy season. Both families also rely on agriculture as their only source of income.

Lebita, Sofileti, Lucy, Steria, and their children now have a safe and durable home, with a tin roof through which the rain does not pass. But there are many more families who need our help.

“ *I am impressed that people here can be so happy with what little they have.* **”**

Adrian
Malawi volunteer

“ *There comes a time in life when you want to give back to those around you. When I heard about this opportunity, I immediately felt the urge to join.* **”**

Cosmin
Malawi volunteerr

Runners for Humanity is a team of runners supporting Habitat for Humanity Romania's mission.

The team has traditionally participated, for the last three years, in Bucharest International 10K for the right to decent housing for families living in unimaginable conditions - overcrowded houses, homes in urgent need of repairs, with no heating, and, in some cases, no indoor toilet.

For three years, Habitat for Humanity Romania has been a charity partner of the competition.

10% of the participation fee is donated by the organizers for the organization's projects.

The number of runners has increased from year to year. It started with 12 runners in 2017, continued in 2018 with over 180 people and in the 2019 event there were over 250 corporate and individual runners.

Runners are both supporters of the organization and employees of companies that responsibly support a healthy lifestyle and the mission of the organization: a decent and safe home for everyone.

Each runner achieved their fundraising goal, set on the Habitat for Humanity Romania fundraising platforms as well as through other crowdfunding methods. The 2019 edition raised an estimated 25,000 euros with the help of the runners.

Join the Runners for Humanity team!

There we announce both the sporting events we participate in throughout the year, as well as the steps for team registration.

Constandache Family

For the Constandache family, a decent house had always been an unattainable luxury. At first, they lived in Paul's father's house, which they fled due to constant fighting.

They decided to rent a house when their second child was on the way – Robert, who is now 3 years old. They moved from house to house for a while. None of the rented homes were suitable to raise two toddlers on just the father's salary. For a while, they lived in an old house, with no hot water and no indoor toilet. For half a year they had a decent home, but the owner asked them to leave.

They packed yet again and started the search for another house to rent. They found a place, but it lacked the comfort they wanted to offer their children. Such insecurity that did not allow them to raise their two children properly.

For Alexandra and her little brother, BIG BUILD 2018 was the only chance at a room of their own.

**The only
chance at
a room of
their own**

Our Stories

BIG BUILD 2018

Ioneticu Family

The Ioneticu family had been dreaming about having their own house. They had set money aside, they applied for social housing, but their trials had been unsuccessful.

For the past 8 years they lived in an aunt's house. There, they had 2 small rooms, 8 square meters each, and a small kitchen. They heated the whole place with one stove and their bathroom was outside, in the backyard.

After their daughter – Maya - was born, the mother dedicated herself to raising her, and Ionuț worked hard to provide for the family. Maya is a happy child, she loves to draw and goes to dance contests at her kindergarten.

For the Ioneticu family, BIG BUILD was the fulfilment of their biggest wish, which seemed unattainable until now: a home to call their own!

Alexandru Family

Ionica Alexandru is a strong mother. She is raising her two sons by herself, trying to offer them everything they need to grow up beautifully. Erik is 14, he is talkative and sociable, passionate about history and foreign languages. Andrei is 4, he is full of life, with an addictive smile and lots of love for his brother. They did not know how it feels to have a home of their own.

After Ionica divorced Erik's father, the two moved back into her mother's home, then they lived in a rented apartment. When Andrei was born, a new relocation followed.

Ionica now lives with her two boys in a rented house. She has several jobs, so that she can offer her kids everything they need. She was not been able to get a house loan and her applications for social housing have remained unanswered. But her family is one where unfulfillment and shortcomings are compensated by love, communication, generosity.

After BIG BUILD 2018, Erik, Andrei and Ionica stepped inside their first home, a place to feel safe in.

Lăcraru Sorin Family

Diana and Sorin, aged 28 and 29, respectively, have three children: Alexandra Elena (9 years), David (5 years) and Stefan (1 year). In 2014, following the floods, their house was almost demolished. After the flood, they were temporarily moved to a container which, however painful it may sound, was their “home” for four years, and subsequently the five family members lived in a house made out of clay.

The house didn't have a toilet or a kitchen, and the food was prepared in a barn. The family's monthly income is 1.263 lei (290 USD), this is the father's salary plus

the children's allowance. From this money, the parents provide food, heating wood, but also the treatments of little David who suffers from spastic tetraparesis. Despite their financial situation, the parents take him three times a week to therapy.

They wanted a home where their children can grow up beautifully and live in decent conditions, a home that is spacious enough for David to perform the exercises recommended by the doctor.

**Their children can
grow up beautifully
and live in decent
conditions**

Dan Ioana Family

Grandma Ioana is 75 years old and has raised 5 children, 15 grandchildren, and 10 great-grandchildren. The youngest great-grandson came to the world six weeks ago. A widower for many years, Ioana was affected by the floods of 2014 and after living in a container for a while, she made an improvised house.

She lived here with the two minor grandchildren she cares for alone, the mother of one of them being away for work abroad and returning for a short period at home, several times per year. Grandma Ioana goes to harvest mulberries to make extra money for the little ones.

She is sad when she tells of her house before the floods, her beamed house that was swept away by water five years ago, but speaks beautifully of the house that Habitat for Humanity volunteers built for her. A safe, clean, and warm house for her and her grandchildren.

A safe, clean, and warm house for her and her grandchildren.

The Liță – Racoltea Family

Loredana Racoltea (22 years old) and Andrei Liță have two children aged 9 months and 1 year and 9 months. The four of them lived in an old house, owned by Andrei's parents. The fireplace was in an advanced degradation and with each rain, pieces fell off from the ceiling. The safety of the family was in danger, especially since rats frequently entered the house.

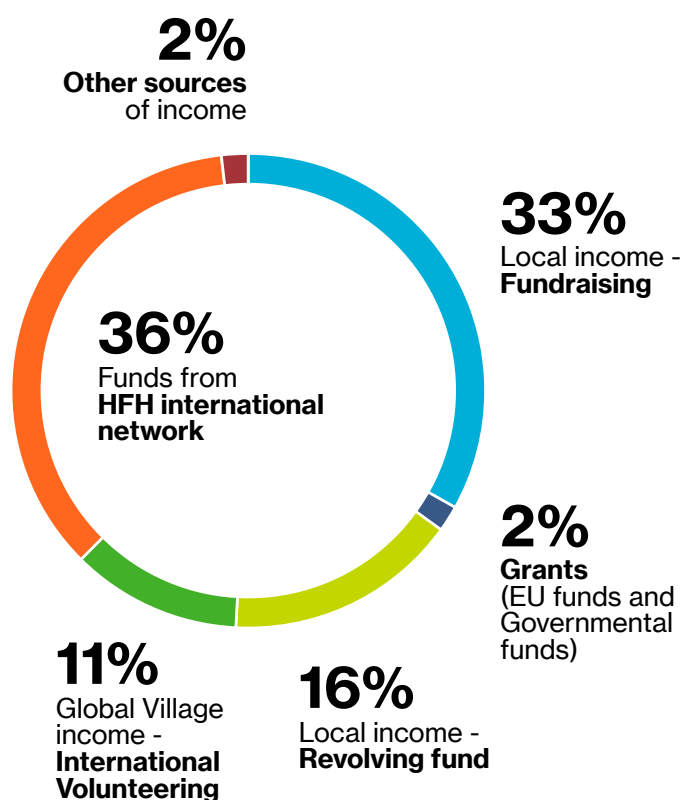

The house they lived in was limited to one room and it was the bedroom, bathroom, and even the kitchen in winter. There they slept, washed, and cooked. Due to humidity and cold, children were always sick. With tears in her eyes, Loredana said she most wanted a decent, safe, and warm home for her children.

Other Contributions

Individual Contribution

Habitat for Humanity Romania offers national and international volunteer programs for people who would like to contribute to our mission of a world where everyone has a decent place to live.

Global Village

Habitat for Humanity Romania may work around the corner from you, but we also work around the world. Through Habitat for Humanity's Global Village trips, you can volunteer abroad with us in nearly 30 nations.

And Habitat for Humanity Romania is proud to be part of the big family of hosting countries and receive annually volunteers across the world.

Thites

Tithe is a foundational principle of Habitat that provides critical funding for our international work.

All of Habitat's U.S. affiliates are expected to contribute 10 percent of their unrestricted revenue in recognition of – and commitment to – the global nature of our mission.

Habitat for Humanity's Tithe program supports carefully chosen building and shelter projects that provide decent and affordable housing in the world's poorest places. Tithe funds allow families to stand on their own and build stronger, more stable communities.

Habitat for Humanity revolving fund

Building costs would be financed by a revolving fund called "The Fund for Humanity." The fund's money would come from the new homeowners' house payments, no-interest loans provided by supporters and money earned by fundraising activities. The monies in the Fund for Humanity would be used to build more houses.

**Donate,
volunteer,
speak up or
explore more
ways to help.**

Your support means
more families will be able
to experience the strength,
stability, and independence
of a decent and affordable
place to live.

Companies

Be a partner!

Habitat for Humanity Romania invites philanthropic companies, corporations, and foundations to join our mission of eliminating poverty housing.

Partnering with Habitat for Humanity Romania gives corporations and foundations a laudable and visible social responsibility project. It is a chance to show that our partners aim for more – an opportunity to give back to the community they work in and see tangible results. Habitat for Humanity Romania offers partners prominent public exposure as well as successful team building with a positive impact on their employee's morale.

Every donation helps a family build a foundation. Be a sponsor of our building projects:

Financial Contribution

Your donation will enable Habitat for Humanity Romania to continue providing affordable and decent shelter to thousands of families in Romania;

Product donations

A great way to support Habitat for Humanity Romania in line with your business and an amazing opportunity to use your products for a practical and socially responsible activity. It is also a good way to introduce your products to a new potential market group in an area of planned business expansion.

Product donations can range from insulation material to innovative design consultancy, pro bono media coverage to corporate advocacy. We accept all products that will benefit the families in their new home such as building materials, tools, and safety equipment.

Be a volunteer

Nothing builds the team better than building a home for a family in need. Your colleagues can join forces during a teambuilding on the Habitat for Humanity Romania worksite.

CRM Campaign

Implement a cause-related marketing campaign and redirect part of revenues of your products to the mission of Habitat for Humanity Romania.

Redirect 20%

of the company's Profit Tax

Redirect 20%

By redirecting 20% of income tax to Habitat for Humanity Romania, you support us in continuing our mission to eliminate poor sheltering and lack of shelter.

Individual

Direct Debit

Signing bank mandates, where you, as a volunteer, can choose to donate an amount of money only by signing the direct debit document. The amount chosen will be extracted monthly from your bank account and at any time you can choose to stop this process.

[Contact Us](#)

Redirect 3,5%

of your Income Tax

By redirecting 3,5% of income tax to Habitat for Humanity Romania, you support us in continuing our mission to eliminate poor sheltering and lack of shelter.

[Redirect 3,5%](#)

Monthly donation

Your donations will help us raising the necessary funds for our programs, will help us to renovate homes for vulnerable families, to intervene after natural disasters or to build and rehabilitate public utility buildings for disadvantaged groups (medical centers, community centers, schools).

Donate on site

Support a Habitat for Humanity Romania project by on-line donations.
