Habitat
for Humanity®
România

**We build
strength,
stability, and
self-reliance
through
shelter.**

Since 1996, Habitat for
Humanity Romania has
helped more than **100,000**
people build or improve
the place they call home.

Roberto Pătrășcoiu
National Director
Habitat for Humanity Romania

“ 2020. Together

*2020 was, perhaps, the hardest year in the history of our organization. It was a year, where everything that we planned was shuttered by the COVID-19 pandemic. It was also a time where our very mission statement- “bringing people **together** to build homes, communities and hope”- was challenged like never before: We couldn’t have volunteers on our worksites; We could not witness the magic of partner-families working side by side with volunteers.*

But we could not give up.

As Leilani Farha, United Nations Special Rapporteur put it: “Housing has become the front line defence against the coronavirus. Home has rarely been more of a life or death situation”. The uncertainty so many of us felt during the pandemic, the vulnerable families we serve have felt for a lifetime — if not generations. In a world of “stay-at-home”, we made sure that the families we serve get access to that home as soon as possible. We challenged the status quo.

We were resilient. We continued projects and even developed new ones, constantly adapting to the new environment.

With this report, I invite you to discover our work, expressing my immense gratitude for all those who stood together with us: colleagues, donors, volunteers and partners.

Because, in the end, together is not about physical distance. Together is a feeling. ”

Our Mission

Seeking to put God's love into action,

Habitat for Humanity brings people together to build homes, communities and hope.

Our Vision is a world where everyone has a decent place to live.

We are therefore constantly looking for new solutions that would make adequate housing accessible and affordable for all.

Our Principles

Focus on shelter.

Advocate for affordable housing.

Promote dignity and hope.

Support sustainable and transformative development.

Demonstrate the love of God.

A decent home is now more important than ever

At the beginning of the pandemic, we all have found ourselves trying to adapt to the measures required to combat the spread of COVID-19. The uncertainty so many of us felt those days, is what vulnerable families have been feeling for years, if not generations.

Home is serving as the place we feel the most safe and have the most hope. **But for many, a safe, decent, and affordable home is something they can only hope for.**

In a world of **#StayAtHome**, the house has become **the first line of defense against COVID-19.**

In a world of #StayAtHome, the house has become the first line of defense against COVID-19.

Our vision is a world where everyone has a decent place to live. And we continued to work for our vision, even in these difficult times. We continued to build because we made a promise to our partner families. We promised that we will help them to have a place of their own to call **home**.

The access to secure shelter was even more important during the pandemic.

According to the study “**If walls would talk**”, carried out in 5 European countries, about the quality of living conditions, the problem of inadequate housing was amplified in the context of the pandemic, especially for vulnerable groups. For 34% of respondents, inadequate living conditions became even more difficult to manage with the adoption of self-isolation measures. At the same time, 47% of respondents said that they felt like prisoners in their own homes and had negative thoughts.

We remain in solidarity with the need for decent housing and we make every effort to help vulnerable families improve their living conditions.

A decent home is more important than ever. And now, more than ever, we need you to act as a volunteer, donor, and partner to those in need.

* Source: “If walls could talk” – research report, Kingfisher International

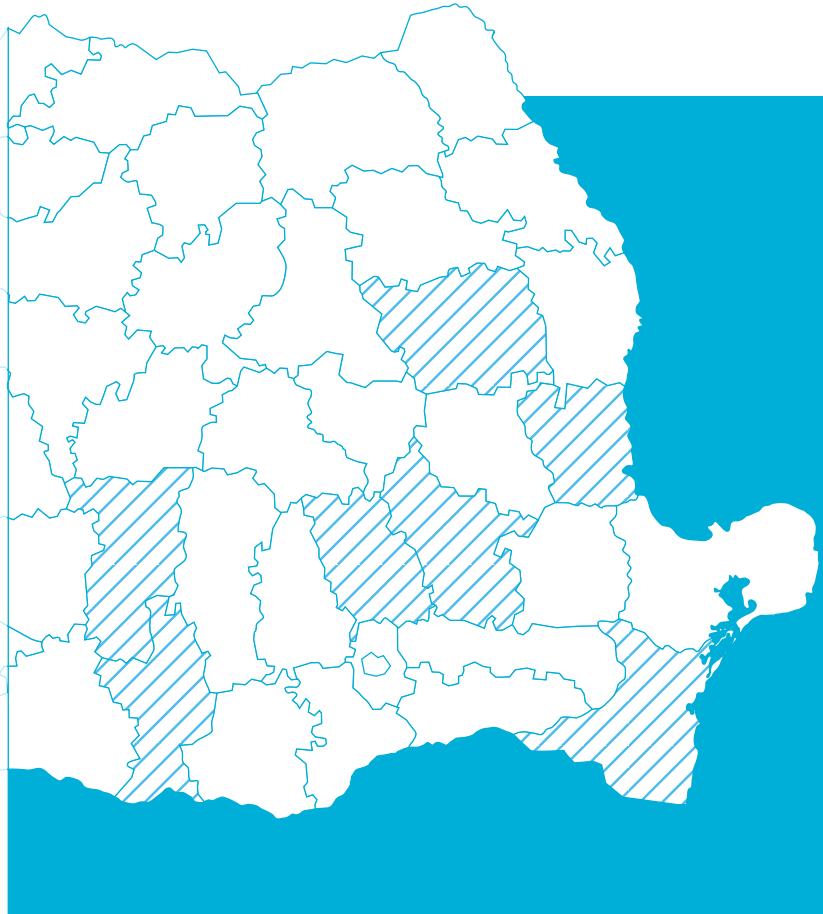

Affordable Housing

Habitat for Humanity Romania builds and renovates homes in partnership with low-income families throughout the country. This ranges from single house builds to blitz builds of 10 or more houses in just one week.

Rehabilitation work is aimed at improving living conditions for families through several types of interventions.

Many of these projects support socially disadvantaged groups: Roma, orphans and families who care for members or children with special needs.

We partner with hard-working individuals and families, with no discrimination in selection. We want to invest in families who are willing to invest in their communities.

Sustainable Communities

Habitat for Humanity Romania builds stronger communities along with volunteers and partners, ensuring, through the projects implemented in areas with a major risk of underdevelopment, a better functioning of them.

The lack of workplaces and infrastructure, limited access to health services, as well as social exclusion and school dropout among children affect the stability and development of communities.

In partnership with local authorities, companies and other non-governmental organizations, Habitat for Humanity Romania builds or rehabilitates educational centers, social and professional integration centers, emergency centers and many more.

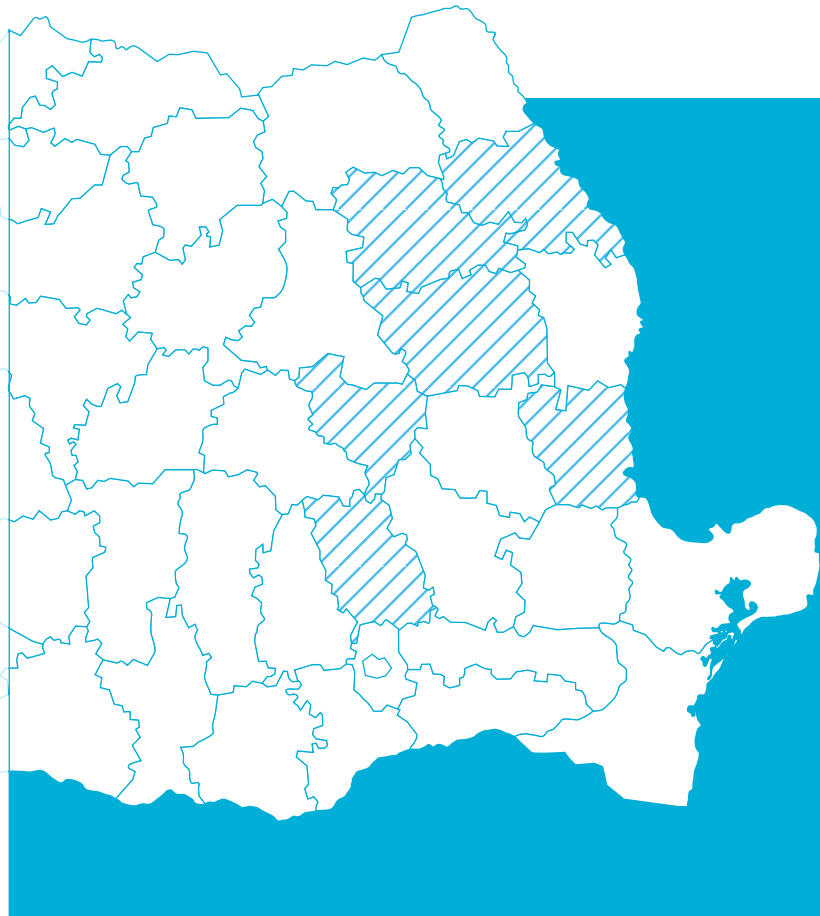

Disaster Risk Reduction and Response

Thousands of families are left without houses following natural disasters: floods, earthquakes, fire and landslides.

Over the years, Habitat for Humanity Romania has helped more than 50,000 people through its Disaster Risk Reduction and Response Programs.

Habitat for Humanity Romania has rehabilitated homes destroyed after natural disasters and often has had to rebuild them entirely thus eliminating the effects and strengthen the capacity of communities to respond to disasters.

These programs are community-based and carried out in partnership with the national government and local governments and businesses.

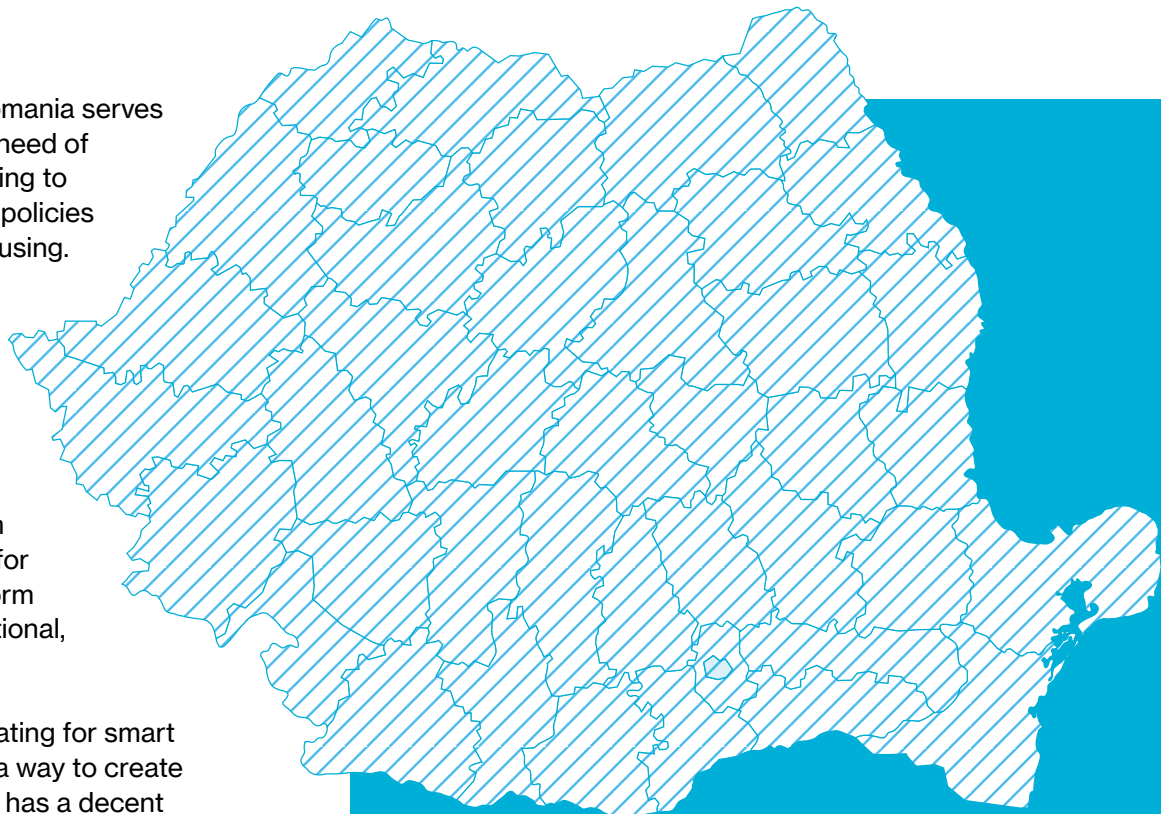

Advocacy

Habitat for Humanity Romania serves as a voice for people in need of decent housing by working to change laws and shape policies that affect access to housing.

Our advocacy approach is based on decades of on-the-ground experience and policy expertise. In our deep understanding of housing and its role in providing opportunities for families, we seek to reform laws in a non-confrontational, nonpartisan way.

Just like building, advocating for smart policies and systems is a way to create a world where everyone has a decent place to live.

10 Homes Vaideeni

2019 – 2020 Vaideeni, Prahova County

10 extremely vulnerable families moved to their first decent homes in August 2020.

Built by Habitat for Humanity Romania at the BIG BUILD 2019 event, with the involvement of over 450 volunteers and with support from partner companies.

The families are part of the community affected by the severe floods of 2014. After the disaster, their houses were destroyed or were severely damaged. They lived for 5 years in container homes or in improvised shelters.

“ The dream of having a home of our own has been fulfilled. Thank you to everyone who helped us fulfill this dream. ”

Silvica Lăcraru
homeowner and mother of Elena.

New Homes Berceni

2019 – 2022, Berceni, Prahova County

12 vulnerable families from Berceni will move into their first decent homes by 2022.

In 2020, we continued the construction works at the two foundations. By the end of 2021, we will complete the construction of one of the quadruplexes (4 apartments), in order to move the first families to their new homes.

The families currently live in old, overcrowded houses, which are in an advanced stage of degradation and in need of urgent repairs.

“ I hope our future home will be beautiful and roomy. ”

Flavia

Flavia and her sister, Alexandra

Rebuilding lives. A project for the most vulnerable in the time of COVID-19 pandemic.

decembrie 2020 – 2021
Iasi, Neamt, Prahova County

**The homes of
30 families from
3 counties in Romania
(Iasi, Neamț and
Prahova) will be
rehabilitated in order
to improve their living
conditions.**

The initiative is extremely necessary, especially in the context of the pandemic, when **families living in inadequate conditions are among those most affected by the COVID-19 pandemic.**

The project will be implemented by Habitat for Humanity Romania over a period of 4 months.

The families live in houses built with improvised materials, unsafe for living or in need of urgent repairs.

**At the end of the
project, families will
have a decent and safe
place to live.**

The works will be carried out by the Habitat for Humanity Romania construction team and involve interventions such as: carpentry replacement, roof repairs, interior finishes (plastering, painting, flooring), installation of new heating system, installation of parquet flooring, etc.

Moinești Emergency Center – Save our Savors

2019 – 2021, Moinesti, Bacau County

Moinești Emergency Service within the community center offers urgent medical assistance to more than 65.000 people from 11 localities in Bacău county.

From April to June 2020, Habitat for Humanity Romania carried out the fundraising campaign "Save our Savors" for the construction of the Moinesti Emergency Center. The campaign aimed to raise donations from individual donors, through the Galantom and RoHelp platforms, as well as from local and international companies.

The Moinesti Emergency Centre will be completed in 2021.

SOS Housing – Chances for Children

2019-2023, Bucharest

Rehabilitation of 2 buildings for SOS Children's Villages in Bucharest. Due to the COVID-19 pandemic, we could no longer build with volunteers on the working site, so we had to extend the implementation of the project. The buildings will be rehabilitated starting with 2022.

The second objective of the project is to set up a **photovoltaic system to produce electricity for the entire SOS village,** and also to reduce the overall maintenance costs. The panels will be installed in the summer of 2021.

The project is implemented in partnership with ENGIE Romania.

Buftea Community Center – Education builds the future

2018 – 2020 , Buftea, Ilfov County

In September 2020, Habitat for Humanity Romania inaugurated the Buftea Community Centre, built in just 2 years with the support of partner companies and volunteers.

After the inauguration, the center hosted 50 - 70 children every day. Children came here to receive help with homework, borrow books and participate in non-formal education activities.

The centre has a total area of 430 square meters, ensuring the highest sanitary and safety standards against COVID-19, during the pandemic. Thus, during the restrictions imposed by the authorities, when the school moved online, the children participated in the workshops organized at the center both in the halls of the center and online.

Over the two years required for the construction of the Buftea centre, more than 1400 volunteers were involved. The volunteers were employees of partner companies, as well as international volunteers who are part of the Habitat for Humanity network (Global Village program).

The centre is administered by the Hercules Association.

Promoters of volunteering in Romania

Annual program

The program was launched in December 2019 by the General Secretariat of the Government and

aims to raise awareness about the importance of volunteering in Romania.

It also aims to facilitate the collaboration between voluntary organizations and local public authorities.

Habitat for Humanity Romania has been nominated as a promoter of volunteering for the Bucharest - Ilfov region.

In 2020, Habitat for Humanity Romania organized and participated in online events attended by representatives of local public authorities, as well as partner organizations.

Virtual volunteering campaign

Habitat for Humanity Romania is a volunteering organization. Volunteers are the ones who help us every year to build more sustainable communities.

2020 was a different year,

in which we had to close the doors of our worksites for volunteers. We cancelled important volunteering events, because the health of our team, partner families, volunteers and partners was more important than ever.

Nevertheless, our mission went further,

even in those difficult times. We made the decision to continue building on the construction sites of the projects we had in progress, but without the physical support of volunteers.

The involvement of volunteers remained vital for the completion of the projects. So, we found the solution to involve them remotely, by registering as virtual volunteers.

5 projects on the platform

25,023 lei raised from donations

How did it work?

Volunteers registered on the fundraising platform voluntarvirtual.habitat.ro, created a virtual volunteer profile and collected donations for one of the Habitat projects.

**Build hope
from a
distance.
Be a virtual
volunteer !**

Ionîță Family

Ionîță Oana (31 years old) is a young mother who raises her two daughters alone - Alexandra (14 years old) and Flavia (9 years old).

Oana and her daughters live in 4 rooms that they share with their mother, grandmother, and a younger brother.

Due to the very small space in the house, Alexandra and Flavia sleep with their mother in the same room. Since they grew up, they feel the lack of personal space and an individual desk to do their homework, which they now solve at the kitchen table.

The house they live in is very old, not isolated and in need of repairs. In recent years, they have managed to arrange a bathroom and a kitchen inside the house. The house is not connected to the sewer network or to the gas.

Oana confessed to us that when she goes to the construction site to help building the new home, she thinks about what their house will look like. She imagines a simple and beautiful home, where her daughters will have a room of their own with two desks by the window, where they can study for school.

A simple and beautiful home for her daughters

Niță Family

Denisa (29 years old) has always been a single mother. The child's father refused to get involved in raising him since Denisa was pregnant. Although they live in the same community, the father never visited his son or supported them financially. Now she and Denis (4 years old), her son, have only each other and live in a small house in Berceni commune, Prahova County, which they share with her mother and her older brother's family.

Denisa is a substitute sports teacher. She travels 50 km to school every day. She graduated from sports school in Brasov, and now she is doing the pedagogical module there. When Denis was one year old, she was working on the completion of her bachelor's degree. She hopes to get a permanent teacher's job at school soon.

**She wants
to pass
on the
help she
received
from us.**

Sport has always been a passion for Denisa. She practiced badminton as a child, and at 15 she was a national champion.

Denisa believes that moving into a decent home would help her progress. She could handle her son's education much better and be even more motivated to advance in her career.

Denis told us that he wants the walls in his room to be blue and the bed to be in the shape of a race car. To make it easier for him to move to a new house, Denisa took him to the Berceni construction site to see how the houses were being built and she explained to him that they would also live in one of the houses.

After they move into their new home, Denisa told us that she wants to continue volunteering at Habitat for Humanity. She wants to pass on the help she received from us.

Our Stories

Rebuilding lives. A project for the most vulnerable in the time of COVID-19 pandemic.

Agapie Family

Gabriela (10 years old) and her sister, Alexandra (11 years old), live in Prahova County together with their father, Vasile (39 years old). They were raised only by their father, who strives to give them access to a good education. The girls have very good results at school, and in their free time they practice folk dances. In recent years, the house in which they grew up has turned into an unsafe living space. They have only 2 rooms where the space is very narrow, there is no natural light, and the walls and ceiling are in an advanced state of degradation.

In just two months, Habitat for Humanity Romania has completely rehabilitated the 2 rooms to create a decent living space for the Agapie family.

Marian Family

Annelis (33 years old) has 3 children - Cristian (14 years old), Elena (12 years old), Gabriel (6 years old) and she lives with them and her husband in Tazlau commune, Neamt County. Cristian, her eldest son, lives most of the time in another locality, at the boarding school. He was diagnosed with mild mental retardation, following an emotional shock experienced in childhood. His mother would like to have him closer, but at the village school there are no teachers for children with special needs.

The 5 family members live in only 2 rooms - a bedroom and a kitchen. The children sleep in the kitchen because it is the warmest room. They also started to arrange the third room, where they planned to be Cristian's bedroom, but they did not have the resources to complete it.

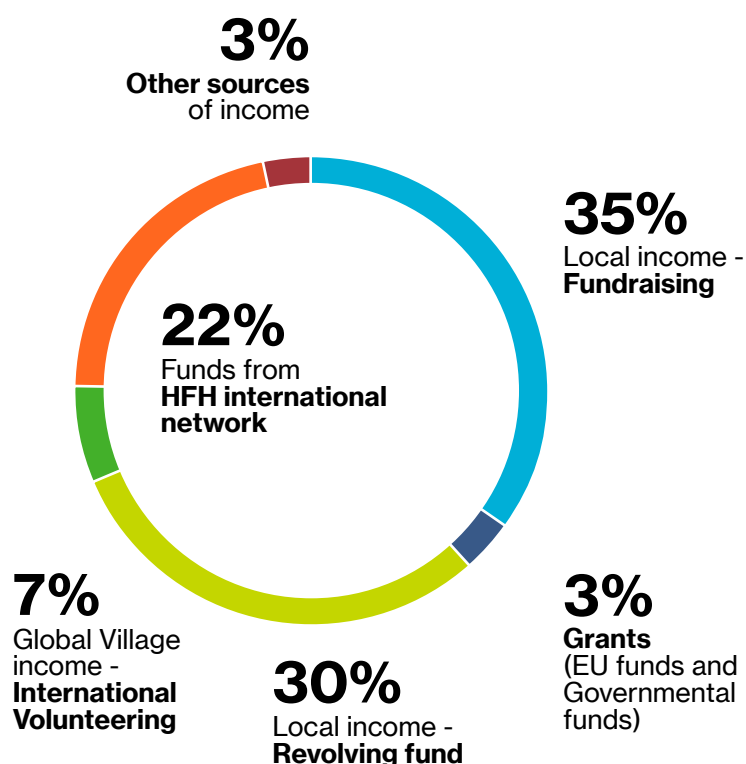

Habitat for Humanity Romania completed the rehabilitation works in Cristian's room to offer him a personal space, which he needs so much when he comes home.

Other Contributions

Individual Contribution

Habitat for Humanity Romania offers national and international volunteer programs for people who would like to contribute to our mission of a world where everyone has a decent place to live.

Global Village

Habitat for Humanity Romania may work around the corner from you, but we also work around the world. Through Habitat for Humanity's Global Village trips, you can volunteer abroad with us in nearly 30 nations.

And Habitat for Humanity Romania is proud to be part of the big family of hosting countries and receive annually volunteers across the world.

Thites

Tithe is a foundational principle of Habitat that provides critical funding for our international work.

All of Habitat's U.S. affiliates are expected to contribute 10 percent of their unrestricted revenue in recognition of – and commitment to – the global nature of our mission.

Habitat for Humanity's Tithe program supports carefully chosen building and shelter projects that provide decent and affordable housing in the world's poorest places. Tithe funds allow families to stand on their own and build stronger, more stable communities.

Habitat for Humanity revolving fund

Building costs would be financed by a revolving fund called "The Fund for Humanity." The fund's money would come from the new homeowners' house payments, no-interest loans provided by supporters and money earned by fundraising activities. The monies in the Fund for Humanity would be used to build more houses.

ways to help.**

Our work only happens
because of people like you.
Your generosity means
families can partner with
Habitat for Humanity
Romania and experience
the stability that affordable
homeownership and
improved living conditions
can provide.

Companies

Be a partner!

Habitat for Humanity Romania invites philanthropic companies, corporations, and foundations to join our mission of eliminating poverty housing.

Partnering with Habitat for Humanity Romania gives corporations and foundations a laudable and visible social responsibility project. It is a chance to show that our partners aim for more – an opportunity to give back to the community they work in and see tangible results. Habitat for Humanity Romania offers partners prominent public exposure as well as successful team building with a positive impact on their employee's morale.

Every donation helps a family build a foundation. Be a sponsor of our building projects:

Financial Contribution

Your donation will enable Habitat for Humanity Romania to continue providing affordable and decent shelter to thousands of families in Romania;

Product donations

A great way to support Habitat for Humanity Romania in line with your business and an amazing opportunity to use your products for a practical and socially responsible activity. It is also a good way to introduce your products to a new potential market group in an area of planned business expansion.

Product donations can range from insulation material to innovative design consultancy, pro bono media coverage to corporate advocacy. We accept all products that will benefit the families in their new home such as building materials, tools, and safety equipment.

Be a volunteer

Nothing builds the team better than building a home for a family in need. Your colleagues can join forces during a teambuilding on the Habitat for Humanity Romania worksite.

CRM Campaign

Implement a cause-related marketing campaign and redirect part of revenues of your products to the mission of Habitat for Humanity Romania.

Redirect 20%

of the company's Profit Tax

Redirect 20%

By redirecting 20% of income tax to Habitat for Humanity Romania, you support us in continuing our mission to eliminate poor sheltering and lack of shelter.

Micro-enterprises can redirect 20% of the quarterly income tax to Habitat for Humanity Romania free of charge.

Individual

Direct Debit

Signing bank mandates, where you, as a volunteer, can choose to donate an amount of money only by signing the direct debit document. The amount chosen will be extracted monthly from your bank account and at any time you can choose to stop this process.

[Contact Us](#)

Redirect 3,5%

of your Income Tax

By redirecting 3,5% of income tax to Habitat for Humanity Romania, you support us in continuing our mission to eliminate poor sheltering and lack of shelter.

[Redirect 3,5%](#)

Create your own campaign

Create your own fundraising campaign and help us build decent homes for vulnerable families. You can choose to raise donations for your birthday, for a sports challenge or for a fundraising challenge in 30 days.

Donate on site

Your donations will help us raising the necessary funds for our programs, will help us to renovate homes for vulnerable families, to intervene after natural disasters or to build and rehabilitate public utility buildings for disadvantaged groups (medical centers, community centers, schools).
